

## **Report**

on the selection of candidates applying for Open Call for participation of  
Young Researchers and Companies in Research projects for  
NPUA/IIAP Cooperative R&D Unit

Open Call for participation of Young Researchers and Companies in Research projects for NPUA/IIAP Cooperative R&D Unit was announced on February 19, 2021 with registration deadline – April 05, 2021. Later, the registration deadline was prolonged until April 20, 2021.

Were received 4 applications from young researchers of the National Polytechnic University of Armenia (NPUA). No applications were received from young researchers from outside the NPUA, as well as from companies.

As a result of the study and evaluation of the applications received, the following applications for individual projects were accepted:

- **Astronomical Objects Classification – Kristine Hambardzumyan**, NPUA PhD student,
- **Performance Optimization System for Hadoop and Spark Frameworks – Kristina Khudaverdyan**, NPUA PhD student.

Two applications from 4th year bachelor students were rejected because the motivation letters did not contain sufficient justification and there were no references to specific project.

Projects leader, Director of IIAP

Hrachya Atsatryan

Manager of R&D Unit, NPUA ISSD
